

BI⓪AgeLess™

SPECIALTY

Ricebran/Cherry  
SunScreen Oil  
w/Organic Lavender EO

100ml

**Features:**

This specialty oil blend is formulated to repair sun-damaged mature skin. Ricebran oil has a high percentage of fatty acids and unsaponifiables and is one of the best sources of tocotrienols, and gamma-oryzanol, a component that can impede the progress of melanin pigmentation by restoring the erythema activity of the tyrosinase enzyme as it intercepts the UV rays at the skin's surface, hindering UV ray transmission. Cherry Kernel oil contains natural antioxidants, alpha, delta and gamma tocopherols plus Vitamins A & E. It also contains a polyunsaturated fatty acid called eleostearic, a conjugated linolenic acid that prevents UV absorption by forming a barrier on the surface of the skin. Lavender is the essential oil most commonly associated with burns and healing of the skin. It also has antiseptic and analgesic properties.

**Directions:**

Gently massage a an adequate amount on the face and skin areas exposed to the sun prior to outdoor acitivity. Re-apply every 2 hours.

**Ingredients:** Ricebran (*Oryza sativa*) oil, Cherry Kernel (*Prunus Avium*) oil, Organic Lavender (*Lavandula angustifolia*) Essential Oil.

No animal ingredients. For external use only.
