pH

pH Balancing Toner

100ml

Features:

Pomegranate oil moisturizes and nourishes dry skin. Most importantly, it helps to balance the skin's pH. This is the second step after the pH Balancing Cleanser to help restore the skin's pH, preparing it to absorb the nourishing properties of the pH Balancing Moisturizer. Gentle on all skin types and suitable for daily use.

Directions:

No chemical solubilizer is added. Shaking is the best emulsifier. Shake the bottle then spritz or pat toner all over the face and neck. Allow to dry naturally before applying moisturizer.

Ingredients:

Pomegranate (Punica granatum) Seed Oil, Neroli (Citrus aurantium) Floral Water.

No artificial fragrance. No animal ingredients.
For external use only. www.bioageless.com

Made in Canada
